DETAILED ACTION

Allowable Subject Matter

1. Claims 17-32 are allowed (Claims 1-16 are canceled by the Applicant).
2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 17-20 and 22-32 is the inclusion of the limitations of the coupling electrode comprising at least one thin wire; and wherein the at least one thin wire starts from the zone at the side edge of the glazing, is conducted over the surface covered by the cladding, and is returned exclusively to the zone of the side edge with at least one fold, so that two ends of the wire are situated exclusively in the zone of the side edge of the glazing. It is these limitations found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claim 16 is the inclusion of the limitation of the two ends of the wire of the coupling electrode are places in proximity with two different of the glazing. It is this limitation found in the claim, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
